

DIMMER COMPATIBILITY LIST

CORE LED lamps are designed to be dimmed with standard incandescent type dimmers. The following lists each lamp's compatibility with today's leading dimmers, generated from lab testing of samples.

Your results could vary, as the presence of a dimmer on this list does not guarantee or warranty the compatibility of the LED lamp in every installation.

MR16 (MR16-G5-73830/73840) COMPATIBLE DIMMERS

For MR16 dimmer compatibility, please see our Technical Update [here](#).

For further information on the MR16 dimmer compatibility issues, please see *Challenges of Dimming LED Loads on ELV and MLV Transformers*, published by Lutron Electronics May 9, 2014 [here](#).
