

Selectable CCT: 5000K / 4000K / 3000K

Up to 450 Lumen Per Foot

Direct AC 120V Input

LS2 Series Linear Strips

5 YEAR WARRANTY

The LS2-Series Linear Strip is a dimmable, low profile solution for any cove or undercabinet project. Available in a variety of lengths with the ability to connect up to 10 strips on one pass, they are the most versatile way to give your project a custom look.

Key Features & Benefits

- Up to 450 lumen per foot
- Direct AC 120V Input
- Integrated ON/OFF toggle switch* directly on each strip
- Field-selectable CCT: one SKU gives you the flexibility to switch from warm to cool white light*
- T5 shape for retrofit applications
- Connect up to 10 strips on one pass (maximum 40 feet)
- Safe and durable polycarbonate lens cover
- High strength aluminum for durability and optimum heat dissipation
- Available in 9", 14", 23", 35" and 47" lengths
- Optional Magnetic Clips to easily mount to any magnetic surface
- Great for undercabinet and cove lighting in the hospitality and healthcare industries

* Excluding LS2-93-X models

WHY CHOOSE THIS FIXTURE?

INCLUDED MOUNTING CLIPS

Screw-in clips included for quick surface mounting (optional Magnetic Mounting Kits available)

ON/OFF SWITCH

Integrated ON/OFF switch for ease of control

Select from 3500K, 4000K, and 5000K

POLYCARBONATE COVER

To ensure safety and durability

CONVENIENT T5 SHAPE

Designed with a T5 shape, making it suitable for retrofit projects

OPTIONAL MOUNTING KITS

LS2-MAGCLIP*

Direct mount to magnetic surfaces

LS2-MAGCLIP-90*

Side/wall mount to magnetic surfaces

CONNECT UP TO 10 STRIPS! (40 FOOT MAX)

Connect with Butt-End Connector (included)

Connect with 12" or 36" Interconnecting Wire (optional)
