

Available in 29W, 50W, 80W & 120W

120-277V or 120-347V

Up to 17,700 lumens

4000K | IP65

# WP7-Series LED Traditional Wall Pack

The WP6-Series LED Traditional Style Wall Pack uses industry-leading LED chips and drivers to deliver a quality, energy saving lighting solution. It is also designed for an easy install, directly fitting onto existing electrical boxes, making it the contractor's choice when replacing older high pressure sodium and metal halide wall packs.

They are the ideal solution for replacing older high pressure sodium and metal halide wall packs found on building perimeters, exterior walls, parking lots, and walkways.

## Key Features & Benefits

- Up to 150 lm/W
- Traditional style wall pack using modern, energy-efficient LED technology
- Aluminum Alloy housing for corrosion resistance
- IP65 rated
- -40°F / -40°C minimum starting temperature
- Uses a glass lens that won't haze over time and provides high light transmission and clarity
- Optional accessories: Glare Shield to reduce upright/side glare and Wire Guard for additional protection
- Backed by a worry-free 10 year warranty

# WHY CHOOSE THIS FIXTURE?

## MULTIPLE KNOCKOUTS

Offers a wide range of flexibility when choosing where to install

## INTEGRATED PHOTOCELL (120-277V MODELS)

Includes an Integrated Photocell (optional Stem Mount Photocell accessory available for 347V models)

## ALUMINUM ALLOY HOUSING

IP65 rated to be dust tight and protected against projected water

## GLASS LENS

Transmits 92% of light, won't haze over time and provides a high resistance to UV degradation

WP7-WG

## WIRE GUARD

Order the optional Wire Guard for added protection from vandalism and impact

WP7-SHIELD

## GLARE SHIELD

Add the optional Glare Shield to eliminate uplight and reduce side glare
